ZEMedS Technical and Financial Toolkit

Tuesday, 1 February 2015

As the current European legislative and building industry look toward more energy efficient design, with the eventual goal of nearly zero energy use, additional tools are needed. The Toolkit being developed by the joint collaboration of the ZEMedS Project Consortium will facilitate understanding of the impact of design and construction decisions on the rising cost of energy, setting up common future nZEB strategy and analyzing the available funding resources. [>>read more](#)

ZEMedS First Case Studies Studied

Friday, 13 March 2015

Following a deep renovation strategy, different packages of measures have been examined stepwise initially to four schools buildings as case studies. The energy performance of the selected school buildings has been calculated using an energy simulation program. [>>read more](#)

ZEMedS presented on on MaTrID Expert Workshop on Integrated Design

Tuesday, 20 January 2015

MaTrID project aims to support the implementation of Nearly Zero Energy Buildings by 2020. ZEMedS was invited at the 4th and final expert workshop on Integrated Design focused on lessons learned from demonstration projects that took place on 26 November 2014 in Vienna, Austria. The workshop was held at aspern IQ, which is the winner of the GB ID Award 2014 [>>read more](#)

Italy's first Passive House School receives certificate near Verona

Energy efficiency and climate protection are a learning process for everyone. Consequently, a school building is always an ideal object of study in the context of building construction. An excellent example of this was inaugurated in September near Verona: the "Scuola Passiva Raldon" – Italy's first Certified Passive House School. This new build combines high quality architecture with sophisticated building systems, featuring a ventilation system integrated into its façade [>>read more](#)

NEXT ZEMedS EVENTS

4th Progress Meeting

15 - 16 April 2015 - Florence (IT)

Next Progress Meeting will be hosted by ZEMedS partner ANCI Toscana more information soon on the project's website! www.zemedes.eu

PROMOTING RENOVATION OF SCHOOLS IN A MEDITERRANEAN CLIMATE UP TO NEARLY ZERO-ENERGY BUILDINGS

Co-funded by the Intelligent Energy Europe Programme of the European Union

www.zemedes.eu
